

## Initial Project Planning Template

|               |                 |
|---------------|-----------------|
| Date          | 17 JULY 2026    |
| Team ID       | SWTID-2026-4144 |
| Project Name  | RISING WATERS   |
| Maximum Marks | 5 Marks         |

### Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create a product backlog and sprint schedule

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task                                                                 | Story Points | Priority | Team Members               | Sprint Start Date | Sprint End Date (Planned) |
|----------|-------------------------------|-------------------|-----------------------------------------------------------------------------------|--------------|----------|----------------------------|-------------------|---------------------------|
| Sprint-1 | IOT Data Collection           | USN-1             | As a system, I can collect water level+rainfall data from Iot sensors every 5mins | 3            | High     | Veeraboina Vishnu priya    | 01-07-2026        | 04-07-2026                |
| Sprint-2 | Data Storage                  | USN-2             | As a system, I can store real-time sensor data in database for analysis           | 2            | High     | Peddapalli Manovardhan sai | 05-07-2026        | 08-07-2026                |
| Sprint-1 | ML Prediction                 | USN-3             | As a system, I can predict flood risk using ML model based on sensor+weather data | 5            | Low      | Maddika Yashwanth          | 09-07-2026        | 14-07-2026                |
| Sprint-3 | Alert System                  | USN-4             | As a user, I can receive flood alert via SMS/App if risk is High in my location   | 3            | Medium   | Veeraboina Vishnu priya    | 15-07-2026        | 17-07-2026                |

|          |                |       |                                                                                 |   |      |                            |            |            |
|----------|----------------|-------|---------------------------------------------------------------------------------|---|------|----------------------------|------------|------------|
| Sprint-1 | Offline Alerts | USN-5 | As a user in low-network area, I can receive alerts via community siren trigger | 2 | High | Peddapalli Manovardhan sai | 18-07-2026 | 20-07-2026 |
|----------|----------------|-------|---------------------------------------------------------------------------------|---|------|----------------------------|------------|------------|
